About

I am a web developer who is 19 years old and looking for a job, so far I have only worked on personal projects such as a website where I help children learn to program and to Make Robots in Arduino. With that project I took 2nd place at the national "InfoEducatie" olympiad. As an experience I was in a bootcamp called "Generatia Tech" where I received a fullstack javascript certification, in addition I participated in a course called "Web Leap" where I received a web design certificate. I worked at "Biltaş" for 2 weeks, being part of an accreditation project, where I made javascript and react-native applications. And I spent another week in Cyprus in Limassol, where I assembled and programmed robots, this activity being part of an Erasmus project.

WORK EXPERIENCE

Digital Nation

(14/11/2021 - 08/03/2022)

Javascript Explorer

This course taught me what Javascript is and how to use it, besides that it opened my horizons to frameworks such as Next.js, with which I have been working ever since. At the same time, I learned how to make an API with Node.js, and Express.js, and to use the MongoDB.

Biltaş

(14/11/2022 - 25/11/2022)

Internship

I worked at this company, during the internship period of the school, through an accreditation project, no. 2022-1-RO01-KA121-VET-000053939. Here I saw what it's like to work in a software development company, and I learned how to make mobile applications using react-native

Erasmus+ Project

(12/04/2022 - 12/12/2022)

Student

I was in Limassol, Cyprus, at IMS Private School Ioanni Tsirou, where I built and programmed robots. Project no. 2022-1-RO01-KA121-SCH-000052031
